## GAMEPLAY

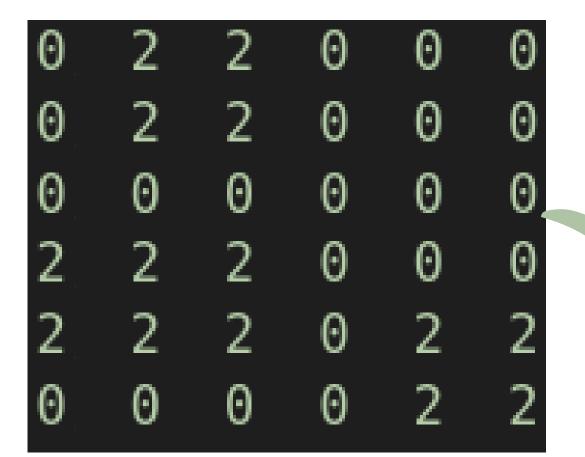

# COLLISIONS

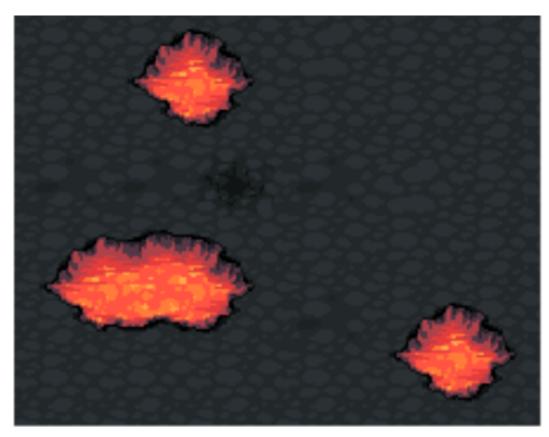

#### COLLISIONS

```
check_collisions(my_obj, My_Object.instances) {
    for (const other_obj of My_Object.instances) {
        if (!(my_obj.hitBox.is_colliding(other_obj.hitBox))) { continue; }
        switch (my_obj.group) {
            case "group A":
                switch(other_obj.group) {
                    case "groupe B":
                        break;
               break;
```
